

BYD T3

Why BYD T3 Electric Van?

Powered by BYD's proprietary Lithium Iron Phosphate (LFP) Blade Battery that offers better safety with a capacity of 44.9kWh, the highly efficient eT3 produces zero emissions and travels up to a range of 280 km on a single charge.

Equipped with both AC and DC charging ports, the eT3 is fully charged in one hour with a DC charger and approximately 6.8 hours with an AC charger.

Designed for efficiency, the BYD eT3 reduces operational and maintenance costs and offers an outstanding cargo capacity of 3.8m³ with a payload of 800kg.

Key Features

- Compact, fast and quiet
- Zero emission
- 100% electric powered
- Low maintenance and operating costs
- Up to 280km range
- Up to 75% of fuel cost savings
- High payload of 800kg
- Compatible with both AC and DC chargers
- Adjustable regenerative braking for optimal driving comfort and energy savings
- Keyless Entry and Start/Stop System
- Electronic Gear Shift
- Tire Pressure Monitoring System

Safety Systems

- Dual Front SRS Airbags
- Anti-lock Brake Systems
- Electronic Stability Program
- Electrical Parking Brake
- Brake Override Systems
- Electronic Brake Force Distribution

Vehicle Dimensions

- Length: 4460mm
- Width: 1720mm
- Height: 1875mm
- 45kWh (95hp)
- Max weight: 1610kg
- Cargo space: 3,800 litres/3.8 cubic metre boot space

Warranty

- Battery: 8 years / 500,000km, whichever comes first
- Motor: 5 years / 200,000km, whichever comes first
- Vehicle: 3 years / 100,000km, whichever comes first

Up to 8x Free Servicing

- 1st run-in servicing at 5,000km
- 2nd to 8th servicing every 12,000km

*Free Servicing is 8 times up to 89km or 4 years, whichever comes first.
