

HIGER H5C EV MINIBUS

Why Higer H5C EV Minibus?

The H5C EV offers efficient energy use and strong performance. Its electric drive and automatic transmission ensure easy operation and low maintenance. Powered by CATL's 70.47kWh battery, it runs silently with zero emissions and travels up to 245km (ECO mode) on a single charge.

Fast-charging capabilities include a 60kW DC charger, replenishing the battery from 20% to 80% in under 45 minutes, alongside a 6.6kW AC charger for versatile charging options. With seating for 13 passengers plus a driver, the H5C EV is perfectly suited for diverse urban transport needs, combining practicality with environmental friendliness.

Key Features
